The Ley, Weobley, Hereford, HR48QR

CV 2025

The kinetic wind sculptures that I create bring to life the hidden forces surrounding us in an ever-changing dance. In such a complex world it is more important than ever to feel connected to, and understand, the environment we inhabit. The sculptures glint in the sun as they move, reflecting the beauty of our shared world, and bringing a spark of joy to their surroundings. I endeavour to inspire people to notice the wonder of the world around us, and offer a sense of optimism to the viewer.
